Book Review

Please can you write a book review today? It can be about a fiction book or non-fiction.

Please tell me what your overall thoughts about the book are; who was your favourite character; what is your favourite part of the book; who is it by; would you recommend it to your friends; would you read it again?

BUT

Don't give away the ending if you're reviewing a story book.

Please upload your work to Teams so that I can see how you have got on.

I'm looking forward to reading your work!
